National Online Teacher Training

Welcome to the National Online Teacher Training (NOTT) Programme, a new online initiative to suit modern busy lifestyles that enables trainees to complete part of their teacher training through distance learning.

The unique approach of NOTT allows us to offer you support before and during your teacher training. Our advisors can discuss how this can work for you. Our two stage approach aims to give you the best opportunity to become a Great Teacher.

Stage 1: Preparing to Teach

Support with UCAS application process

Our advisors will work with you through the UCAS application and interview process, and identify the package of support to best prepare you for your training year.

Subject Knowledge Enhancement (SKE)

Trainees may be enrolled onto one of our SKE courses where they will develop their subject knowledge across Key Stage 3, GCSE and A-Level through an 8, 16 or 28-week SKE course. These courses are fully funded and attract a £200 per week bursary for eligible candidates.

Preparation for the QTS Skills Test

Through our QTS skills test preparation course we can support the development of trainee's numeracy and literacy skills and offer tailored advice to each trainee.

Access to examples of best classroom practice

Using our VIDLEARN® Classroom Observation System (VCOS) we have recorded lessons live in the classroom which are then reviewed and prepared by a professional in education. These resources help trainees develop their subject knowledge further and provide a link between theory and practice.

Dedicated tutoring and support

We can offer each of our trainees a dedicated tutor and support team who they can communicate with via several channels.

Stage 2: Becoming a Great Teacher

More time spent in the classroom

With elements of the course delivered online there is no need for you to attend centre or university-led lectures. This means you can be based full time in your placement school to benefit from immersion in the school environment from the very start of your training.

Teacher Training Enhancement Programme (TTEP)

The TTEP suite of online resources takes you through the Professional Studies 1 and Subject Studies that you need at the start of your teacher training. Professional Studies 2 builds on this to extend and improve your teaching. This is supported by our pedagogy sessions that are aligned with the Teachers' Standards to provide coherent examples of best practice.

Access to your dedicated online support package

This is a suite of online facilities that allows trainees' progress on the ITT year to be tracked. This includes tools for lesson observations, mentor meetings, evidence tracking, and checkpoint assessments against the Teachers' Standards.

School-based mentor support

You will have a dedicated school-based mentor who will help you to integrate into the school and offer support and advice during the training year.

Dedicated support via NOTT tutor

Your dedicated NOTT tutor will support you through your training and will work with you and your mentor to help you gain QTS.

What subjects do we offer?

NOTT currently offer Teacher Training places in the following Secondary Subjects:

Mathematics	3DY9	Chemistry	3DYF
Geography	3DYJ	English	3DYC
Biology	3DYD	Physics	3DYG
Computer Science	3DYK	Modern Foreign Languages (French or Spanish)	3DYH

Entry Requirements

GCSEs

You must have a Grade C or above in Mathematics and English (or an accepted equivalent).

Degree

You must hold a degree level qualification (where a degree is yet to be awarded, we will require a predicted degree classification as part of an academic reference provided through UCAS).

QTS Skills Test

All trainees are required to pass the QTS Skills test in numeracy and literacy before starting their teacher training. We offer support for all our trainees in completing these.

Experience in a relevant setting

You should seek to spend time in a secondary classroom. This will better prepare you for the demands of the teacher training course and allow you to view what a career in teaching entails.

What do you need to do next?

If you are interested in training to teach with NOTT we recommend calling us to speak with one of our advisors. From day one we offer tailored support to help you through the UCAS application process. We are happy to talk you through the course, funding and any other questions you may have on our freephone number 08000 319 319

Or email contact@nationalonlineteachertraining.co.uk

What funding is available?

There are three types of funding available for teacher training depending on your circumstances, you could receive all three:

- Tax-Free Bursary or Scholarship (£15,000 to £28,000)
- Tuition Fee Loan and Maintenance Loan
- Extra financial support if you're a parent, have an adult dependant or a disability

If a Subject Knowledge Enhancement (SKE) course is a condition of your offer from us, the SKE will be funded by the DfE. You may also be eligible for the SKE bursary. Eligible candidates can receive £200 per week while they study the SKE.
